

# Armormax SA introduces latest level B6 bullet resistant vehicle!

*Terrorism, kidnapping, hijacking and other forms of assault on our personal liberties have unfortunately become far too common. For those looking for the ultimate in protection, Armormax SA has the solution with the latest addition to our armoring range.*

Successfully blending the latest in armoring technology with traditional craftsmanship, the Armormax B6 range speaks for itself. Since 1993 International Armoring Corporation (IAC)/ Armormax has produced more than 7,500 quality armored vehicles. IAC Armormax has grown to be the premier manufacturer of armored passenger vehicles in the world. As a world leader in the design and manufacture of the lightest, and most original looking finished vehicles, Armormax continues to break new ground in armoring technology. Armormax SA is able to armor a variety of luxury vehicles to a level B4 (High powered handguns) to compliment our new B6 (High powered rifles) range.

Level B6 resists impact from the following callibres:

- (AK-47) 7.62 X 39mm, 145 gr., 700mps / 2,430 fps
- (AK-47) 7.62 X 39mm, 123 gr., 750 mps / 2,697 fps
- (223) Caliber, 45 gr., 919 mps / 3,200 fps
- (308) 7.62 x 51mm (full metal jacket - copper, pointed bullet),

9.8 g, 820 m/s.

- (308) 7.62 x 51mm M80 (full metal jacket - steel, pointed bullet, or soft core), 9.5 g, 2,700 fps 830 m/s.

B6 Currently available in Range Rover, Toyota Land Cruiser, Lexus LS 460, Lexus LX 570 and Mercedes S 500.

For the full B4 range visit: [www.armormax.co.za](http://www.armormax.co.za)

#### Armor Modifications include:

- 1) **Glass:** All glass has been replaced with bullet-resistant transparent armor multi-layer glass with polycarbonate inner layers to prevent spalling upon ballistic impact.
- 2) **Body:** Doors, pillar posts, side panels, kick-panels, firewall, and headers (laterals) have been armored with Armormax® ballistic composite material, equivalent material or ballistic steel in accordance B6 standard of defeat. Elitus® overlap system used throughout.
- 3) **Roof:** Armored with Armormax® ballistic composite material in

accordance with B6 standards level of protection at a 30 degree angle.

- 4) **Floor:** Floor areas have been armored with multi-ply rigid ballistic fragmentation material combined with Armormax® PAC100, molded to form fit contours of floor boards and panels. Protection against single German DM51 or US M-67 hand grenade.
- 5) **Additional extras installed:**
  - Battery: Battery compartment has been armored
  - Fuel tank: Wrapped with Ballistic fragmentation blankets
  - Electronic control Module: (ECM) protection.
  - Siren P/A with intercom system.
  - External Listening Device
  - Tyres: Run Flat wheel and tire protection system.

Our clients include government officials, business leaders, international corporations, religious organizations as well as private individuals.....let us protect you!
